TECHNICAL PROJECTS

Wow Generator - [GitHub](#) | [App](#) -   **Coding language used | HTML, CSS, JavaScript**
A web app that calls an API to every "Wow!" Owen Wilson has said from 1996-2017. Users can search by the number of wow's in a movie and/or by the year.
- Created an app with a simple UI using CSS with flexbox layouts.
- Coordinated information through a third-party API in a seamless interface.
- Created a fully responsive design using CSS that readily adapts to all devices and screens.

NYC Pizza - [GitHub](#) | [App](#) -   **Coding language used | Express.js, EJS, CSS**
A CRUD app that calls to MongoDB server where users can score, add, edit and delete pizza shops in NYC
- Created an application that allows users to add pizza shops, rate, review, and add the borough where the shop is located.
- Deployed application on Heroku so users can share with their friends.
- Created fully responsive design using CSS that readily adapts to all devices and screens.

KonnectuZ - [GitHub](#) | [App](#) -   **Coding language used | Express.js, React, CSS**
A social media CRUD app that uses the MERN stack where users can create an account and comment on other users' posts.
- Lead a team of 4 as the lead frontend engineer.
- Created an application that allows users to scroll through the user feed and see what users are posting i.e a picture or post.
- Users can sign into their existing account or create an account that has a username, password, and profile picture
- Created fully responsive design using CSS that readily adapts to all devices and screens.
- Deployed application using Netlify (client side) and Heroku (server side).

EXPERIENCE

Self Employed, Freelance Web Developer   *New York, NY, 12/2021 - Present*
- Oversaw all operations for my freelance web development company, including project management, customer support, design, and website deployment.
- Built and deployed responsive websites using technologies such as CSS, HTML, JavaScript, WIX, WordPress, EJS, Express, Node.js, React, Bootstrap, and others.
- Maximized SEO to have clients' websites rank higher in browsers to generate more website traffic.

Come Join the Band, Assistant Director   *New York, NY, 12/2019 - 08/2021*
- Oversaw all operations for a private music studio for students ages 3-99, including sales, marketing, and hiring
- Conducted and scheduled daily guitar lessons and jam sessions for students.

Adorama, Audio and Computer Sales   *New York, NY, 08/2018 - 12/2021*
- Assisted clients with both audio and computer sales while consistently reaching monthly sales goal of $120,000.
- Developed professional relationships with small to medium-sized businesses while managing a book of 150+ clients.
